

## Faster time to Market

### Leader in EFT Switching Services

- Pioneer in India
- 100% availability from January 2014
- 100 million+ transactions per month
- Implemented for 22+ large banks

### Enhance channel availability, security and agility

Intensifying competition and technology-driven developments are compelling banks to add new channels, transaction sets and support new card types. However, managing and customising legacy switch infrastructure pose significant challenges. Some of the key roadblocks are high costs of maintaining and upgrading in-house transaction processing switch infrastructure, finding and retaining the right resources and ensuring faster time-to-market with new features and functionality to gain and retain customers.

Banks can outsource electronic payment processing services to FSS to **leverage modern infrastructure, improve availability, optimize performance and ensure security and compliance** at an optimized cost. FSSNeT hosted switch offers banks a comprehensive payment processing platform for online electronic payments. FSS' matured, comprehensive, and reliable EFT Switching services ensure delivery excellence and cost efficiency and enable us to add value to our client's business.

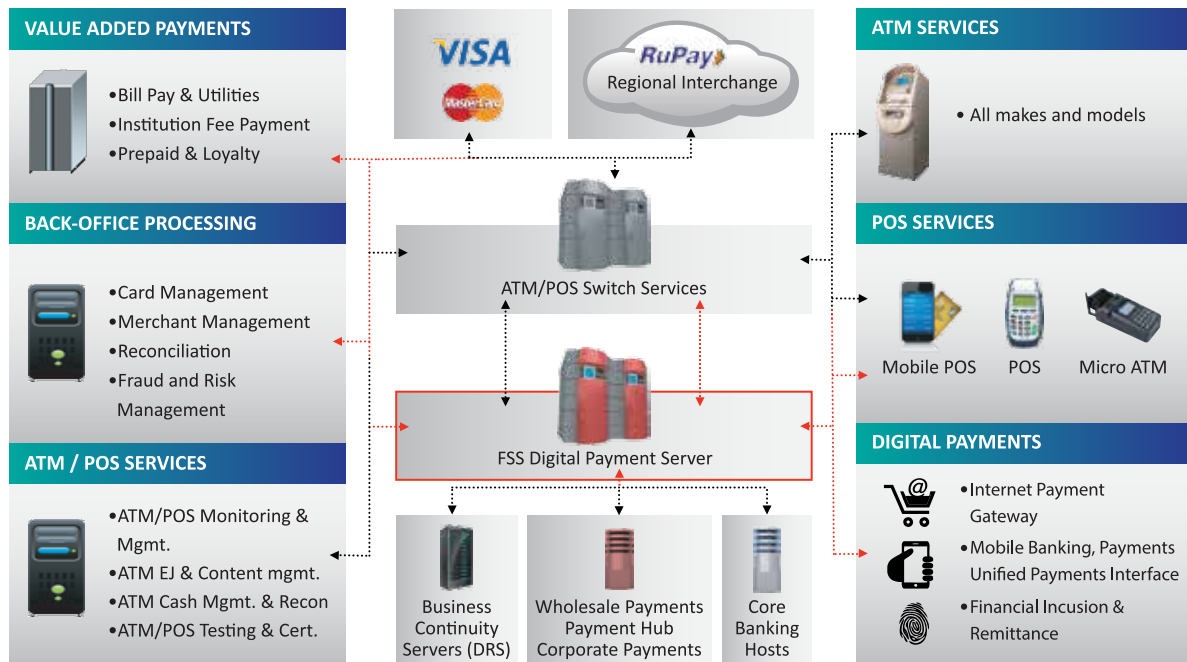

## Service Highlights

- ✓ EFT Switching services for acquiring, routing, switching, authenticating, and authorizing across **traditional and new-age channels**
